

## Technical specification of Equipment

File number: 18LIC.006

### 1.- Equipment description

#### Drying equipment for aqueous suspensions

### 2.- Technical specification

The equipment must meet the following technical requirements:

- ✓ Water evaporation capacity  $\geq 3\text{kg/h}$
- ✓ Maximum inlet temperature  $\geq 250^{\circ}\text{C}$
- ✓ Maximum outlet temperature  $\geq 100^{\circ}\text{C}$
- ✓ Material of construction of the drying chamber: AISI 304 or superior
- ✓ Heating system: electrical
- ✓ Feed system: peristaltic pump with a capacity of 20L/h

### 3.- Other features

Positive value will be given to:

- ✓ Spare-parts availability for at least ten years
- ✓ Technical assistance coverage and rapid response
